SECTION 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product Name: Castor Oil
   Product Code: 300-182X

1.2 Intended Use: Compound used in customer substance/mixture/product.

1.3 Supplier: Majestic Mountain Sage Inc
   2490 S 1350 W
   Nibley, 84321 - United States of America
   T 435.755.0863 - F 435.755.2108
   www.TheSage.com

1.4 Emergency Telephone Number
   No additional information available

SECTION 2: Hazards Identification

2.1 Classification of the Substance or Mixture
   Castor Oil is not a hazardous material and does not contain any hazardous ingredients.

2.2 Label Elements

   Safety Data Ratings:
   Health Rating: 1-Slight
   Flammability Rating: 1-Slight
   Reactivity Rating: 0-None
   Contact Rating: 1-Slight
   Lab Protective Equipment: Goggles; lab coat.
   Storage Color Code: Orange (General Storage)

   Potential Health Effects:

   Inhalation: No adverse health effects expected from inhalation.
Ingestion: No adverse effects expected. Large oral doses may cause spasmodic intestinal or abdominal pain.

Skin Contact: Not expected to be a health hazard from skin exposure. May cause mild irritation and redness.

Eye Contact: No adverse effects expected. May cause mild irritation, possible reddening.

Chronic Exposure: No information found.

Aggravation of Pre-Existing Conditions: No information found.

2.3 Other Hazards
No data available

SECTION 3: Composition/Information on Ingredients

3.1 Substances

SECTION 4: First Aid Measures

4.1 Description of First Aid Measures

Inhalation: Not expected to require first aid measures.

Ingestion: If large amounts were swallowed, rinse mouth and drink plenty of water. Do not induce vomiting unless directed to by a medical professional. Get medical advice.

Skin Contact: Not expected to require first aid measures. Wash with plenty of water and soap after use.

Eye Contact: Not expected to require first aid measures. Wash thoroughly with running water. Get medical advice if irritation develops.
4.2 Most Important Symptoms/Effects, Acute and Delayed
No information available.

4.3 Indication of Immediate Medical Attention and Special Treatment Needed
No information available.

SECTION 5: Firefighting Measures

5.1 Extinguishing Media

Suitable: Foam, carbon dioxide, water, dry chemical powder.

Unsuitable: No restrictions. During fire, carbon monoxide and carbon dioxide may form.

5.2 Special Hazards Arising from the Substance or Mixture
During fire, carbon monoxide and carbon dioxide may form.

5.3 Advice for Firefighters
Use protective clothing and breathing equipment appropriate for the surrounding fire.

5.4 Other Information

Flash Point: 229°C (444°F)
Autoignition Temperature: 449°C (840°F)
Explosion Data: Not considered to be an explosion hazard.

SECTION 6: Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures
Wear appropriate personal protective equipment as specified in Section 8.

6.2 Environmental Precautions
No information available.

6.3 Methods and Materials for Containment and Cleaning Up
Ventilate area of leak or spill. Contain and recover liquid when possible. Collect liquid in an appropriate container or absorb with an inert material (e.g., vermiculite, dry sand, earth), and place in a chemical waste container. Do not use combustible materials, such as saw dust. Small amounts of residue may be flushed to sewer with plenty of water.
SECTION 7: Handling and Storage

7.1 Precautions for Safe Handling
   Keep away from sources of ignition. Wear proper protective equipment.

7.2 Conditions for Safe Storage, Including Any Incompatibilities
   Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against damage. Protect from excessive heat. Protect from freezing.

SECTION 8: Exposure Controls/Personal Protection

8.1 Control Parameters
   Not available

8.2 Exposure Controls

**Engineering Controls:** No special measure required.

**Airborne Exposure Limits:** Airborne exposure is not expected to be a problem under ordinary handling conditions.

**Personal Protective Equipment**

**Eye/Face Protection:** Wear safety glasses with side shields (or goggles). Maintain eye wash fountain and quick-drench facilities in work area.

**Skin and Body Protection:** Wear protective gloves and clean body-covering clothing.

**Respiratory Protection:** In general, dilution, ventilation is a satisfactory health hazard control for this substance. However, if conditions of use create discomfort to the worker, a local exhaust system should be considered.
SECTION 9: Physical and Chemical Properties

9.1 Information on Basic Physical and Chemical Properties

SECTION 10: Stability and Reactivity

10.1 Reactivity
Stable under ordinary conditions of use and storage.

10.2 Chemical Stability
Stable under ordinary conditions of use and storage.

10.3 Possibility of Hazardous Reactions
No data available

10.4 Conditions to Avoid
Avoid excessive cold, heat and sources or ignition.

10.5 Incompatible Materials
Oxidizing materials and sources of ignition.
10.6 Hazardous Decomposition Products
Carbon dioxide and carbon monoxide may form when heated to decomposition.

10.7 Hazardous Polymerization
Will not occur

SECTION 11: Toxicological Information

11.1 Information on Toxicological Effects

Acute Toxicity: No data available
Skin Corrosion/Irritation: No data available
Serious Eye Damage/Irritation: No data available
Sensitization: No data available
Germ Cell Mutagenicity: No data available
Carcinogenicity:

NTP Carcinogen

Reproductive Toxicity: No data available
Specific Target Organ Systemic Toxicity (Single Exposure): No information available.
Specific Target Organ Systemic Toxicity (Repeated Exposure): No information available.
Aspiration Hazard: No information available.
SECTION 12: Ecological Information

12.1 Toxicity
   Acute fish toxicity LCO > 100 mh/L
   Bacteria toxicity ECO > 100 mg/L

12.2 Persistence and Degradability
   Readily biodegradable.

12.3 Bioaccumulative Potential
   Minimum biodegradability is 60% BSB30/CSB Resp. 70% DOC.

12.4 Mobility in Soil
   No information available.

12.5 Results of PBT and vPvB Assessment
   No information available.

12.6 Other Adverse Effects
   No information available.

SECTION 13: Disposal Considerations

13.1 Waste Treatment Methods
   Whatever cannot be saved for recovery or recycling should be managed in an
   appropriate and approved waste disposal facility. Processing, use or
   contamination of this product may change the waste management options. State
   and local disposal regulations may differ from federal disposal regulations.
   Dispose of container and unused contents in accordance with federal, state and
   local requirements.

SECTION 14: Transport Information

Not regulated

- CDTA: No
- SARA 311/312:
  - Acute: No
  - Chronic: No
  - Fire: No
  - Pressure: No
- Reactivity: No (Pure/Liquid)
- Australian Hazchem Code: None allocated.
- Poison Schedule: None allocated.
- WHMIS: This SDS has been prepared according to the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all of the information required by the CPR.
15.3 Other Information

According to EEC Council Directive, Castor Oil is not a dangerous substance but suitable precautions for handling chemicals should be taken. EINECS # 232-293-8.

16.1 NFPA Ratings

Notes:
This safety data sheet is based on the properties of the material known at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances, under which it is packaged, stored or applied in the workplace. For such a safety assessment holds no responsibility. This document is not intended for quality assurance purposes.
