SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 **Product name:** Cucumber & Aloe Fragrance Oil  
**Product code:** 303-143X

1.2 **Intended use:** Compound used in customer substance/mixture/product.

1.3 **Supplier:**  
Majestic Mountain Sage Inc  
2490 S 1350 W  
Nibley, 84321 - United States of America  
T 435.755.0863 - F 435.755.2108  
[www.TheSage.com](http://www.TheSage.com)

1.4 **Emergency telephone number**  
No additional information available

SECTION 2: Hazards Identification

2.1 **Physical Hazards**  
Not classified

2.2 **Health Hazards**  
- Acute toxicity, oral Category 4
- Skin corrosion/irritation Category 2
- Serious eye damage/ eye irritation Category 2A
- Sensitization, skin Category 1
- Carcinogenicity Category 2
- Reproductive toxicity Category 2

2.3 **Environmental Hazards**  
- Hazardous to the aquatic environment, acute hazard Category 2
- Hazardous to the aquatic environment, long-term hazard Category 2

2.4 **OSHA Defined Hazards**  
Not classified
2.5 Label elements

Signal Word: Warning

2.6 Hazard Statement

Harmful if swallowed. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. Toxic to aquatic life. Toxic to aquatic life with long lasting effects.

2.7 Precautionary Statements

Prevention
Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing must not be allowed out of the workplace. Avoid release to the environment. Wear eye protection/face protection. Wear protective gloves/protective clothing/eye protection/face protection.

Response
If swallowed: Call a poison center/doctor if you feel unwell. If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. Rinse mouth. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Collect spillage.

Storage
Store locked up

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

2.8 Hazard(s) not otherwise classified (HNOC)
None known

2.9 Supplemental Information
51.57% of the mixture consists of component(s) of unknown acute oral toxicity. 92.23% of the mixture consists of component(s) of unknown acute hazards to the aquatic
SECTION 3: Composition/information on ingredients

3.1 Mixtures
This product is a complex mixture of ingredients, which contains among others the following substance(s), presenting a health or environmental hazard within the meaning of the UN Globally Harmonized System of Classification and Labeling of Chemicals (GHS):

<table>

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4.1 First-aid Measures

**Inhalation:** Move to fresh air. Call a physician if symptoms develop or persist.

**Skin Contact:** Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.

**Eye Contact:** Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

**Ingestion:** Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn’t get into the lungs. Get medical advice/attention if you feel unwell.

**Most Important symptoms effects, acute/delayed:** Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis Rash.
SECTION 5: Firefighting Measures

5.1 Suitable extinguishing media
   Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

5.2 Unsuitable extinguishing media
   Do not use water jet as an extinguisher, as this will spread the fire.

5.3 Specific hazards arising from the chemical
   During fire, gases hazardous to health may be formed.

5.4 Special protective equipment & precautions for firefighters
   Self-contained breathing apparatus and full protective clothing must be worn in case
   of fire.

5.5 Fire fighting equipment/instructions
   Move containers from fire area if you can do so without risk.

5.6 Specific methods
   Use standard firefighting procedures and consider the hazards of other involved
   materials.

5.7 General fire hazards
   No unusual fire or explosion hazards noted.
SECTION 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

6.2 Methods and materials for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent product from entering drains. Follow product recover, flush area with water.

Small Spill: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

6.3 Environmental precautions

Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Provide adequate ventilation. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Do not taste or swallow. When using, do not eat, drink or smoke. Pregnant or breast-feeding women must not handle this product. Should be handled in close systems, if possible. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.

7.2 Conditions for safe storage, including any incompatibilities

Store locked up. Store in original tightly closed container. Store away from incompatible materials (See section 10 of the SDS).
SECTION 8: Exposure controls/personal protection

8.1 Occupational exposure limits

<table>
<thead>

<td>5 mg/m3</td>
</tr>
</tbody>
</table>

**Biological limit values**
No biological exposure limits noted for the ingredient(s).

**Appropriate engineering controls**
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

8.2 Individual protection measures, such as personal protective equipment

- **Eye/face protection:** Chemical respirator with organic vapor cartridge and full face piece.
- **Skin protection**
  - **Hand protection:** Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.
  - **Other:** Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
- **Respiratory protection:** Chemical respirator with organic vapor cartridge and full face piece.
- **Thermal hazards:** Wear appropriate thermal protective clothing, when necessary.
### 8.3 General hygiene considerations

Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

### SECTION 9: Physical and chemical properties

SECTION 10: Stability and reactivity

10.1 Reactivity: The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2 Chemical stability: Material is stable under normal conditions.

10.3 Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.

10.4 Conditions to avoid: Contact with incompatible materials.

10.5 Incompatible materials: Strong oxidizing agents.

10.6 Hazardous decomposition products: No hazardous decomposition product are known.

SECTION 11: Toxicological information

11.1 Information on likely routes of exposure
   Inhalation: Prolonged inhalation may be harmful
   Skin contact: Causes skin irritation. May cause an allergic skin reaction.
   Eye contact: Causes serious eye irritation.
   Ingestion: Harmful if swallowed.

11.2 Symptoms related to the physical, chemical, and toxicological characteristics
   Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

11.3 Information on toxicological effects
   Acute toxicity: Harmful if swallowed. May cause an allergic skin reaction.
   Skin corrosion/irritation: Causes skin irritation
   Serious eye damage/eye irritation: Causes serious eye irritation
   Respiratory or skin sensitization
     Respiratory sensitization: Not a respiratory sensitizer.
     Skin sensitization: May cause and allergic skin reaction.
   Germ cell mutagenicity: No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
   Carcinogenicity: Suspected of causing cancer
**IARC Monographs. Overall Evaluation of Carcinogenicity**

</tbody>
</table>

Not listed

- Reproductive toxicity: Suspected of damaging fertility or the unborn child.
- Specific target organ toxicity
  - single exposure: Not classified
  - repeated exposure: Not classified
- Aspiration hazard: Not an aspiration hazard
- Chronic effects: Prolonged inhalation may be harmful

**SECTION 12: Ecological information**

12.1 Ecotoxicity

Toxic to aquatic life with long lasting effects.

12.2 Persistence and degradability

No data is available on the degradability of this product.

12.3 Bioaccumulative potential

**Partition coefficient n-octanol / water (log Kow)**

<table>

</table>

12.4 Mobility in soil

No data available

12.5 Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
SECTION 13: Disposal considerations

13.1 Disposal instructions
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or use container. Dispose of contents/container in accordance with local/regional/national/international regulations.

13.2 Local disposal regulations
Dispose in accordance with all applicable regulations.

13.3 Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

13.4 Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

13.5 Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be take to an approved waste handling site for recycling or disposal.

SECTION 14: Transport information

14.1 Transport Information

DOT: Not regulated as dangerous goods
IATA

UN Number: UN3082
UN Proper Environmentally hazardous substance, liquid, n.o.s.
Shipping Name: (Benzyl benzoate)
Transport hazard class(es)
  Class: 9
  Subsidiary risk: -
Packing group: III
Environmental hazards: Yes
ERG Code: 9L
Special instructions Read safety instructions, SDS, and emergency procedures before handling.
Other information

**SECTION 16: Other information**

Notes:
This safety data sheet is based on the properties of the material known at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances, under which it is packaged, stored or applied in the workplace. For such a safety assessment holds no responsibility. This document is not intended for quality assurance purposes.
