15.2 U.S. State Regulations

California Proposition 65

Substance(s) listed under California Proposition 65: Titanium Dioxide CI 77891 is listed as a carcinogen.

This product contains a chemical that is on the Proposition 65 list of chemicals known to the State of California to cause cancer (titanium dioxide). However, a Proposition 65 warning is required for titanium dioxide only when it is present in the form of airborne, unbound particles of respirable size (mass median aerodynamic diameter 10 microns or smaller). Per the State of California, exposure to titanium dioxide for the purpose of Proposition 65 does not occur when it remains bound within a product matrix. (http://oehha.ca.gov/prop65/prop65_list/090211list.html). Because the titanium dioxide contained in this product is bound within a liquid dispersion matrix, a Proposition 65 warning is not applicable to this product in its supplied form. The customer is responsible for determining whether its use of this product could result in exposure of any person(s) to airborne, unbound titanium dioxide particles of respirable size and for providing any required Proposition 65 warning to any such person(s).
