Individual protection measures
Eye / face protection: Not needed for normal use. Operate according to good working practices.
Skin protection: No special precaution must be adopted for normal use.
Hand protection: Not needed for normal use.
Respiratory protection: Control worker exposure to below detectable levels. However, if an effective ventilation system is not in use, use a NIOSH-approved respirator for organic vapors and/or dusts. Where appropriate, use closed systems to transfer and process this material. If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant. Use local exhaust as required to capture all airborne vapors and dust.
