

Reference sheet for Big Lip Balm Tubes

Big Lip Balm Tube (#109-6251)

Actual Size

Note: All dimensions given are the size of the label after it has been cut. The size is the maximum tolerated by the container and may be made smaller. We recommend that a 0.1" bleed area be added to both dimensions of the label file. This would make the file size 2.1" w x 1.9" h.
