

# Reference sheet for 0.15 oz Lip Balm Labels

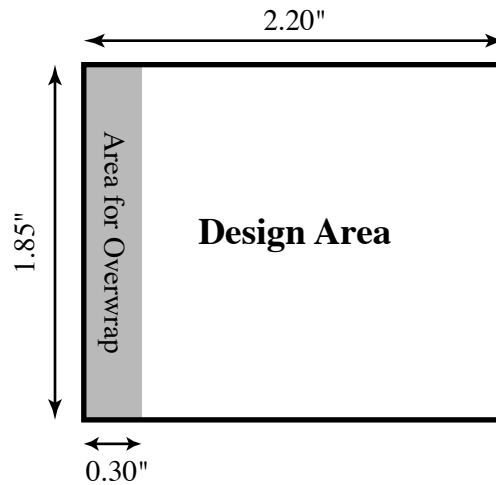

## Lip Balm Tube

(#105-3561, #105-3761 & #105-3741)

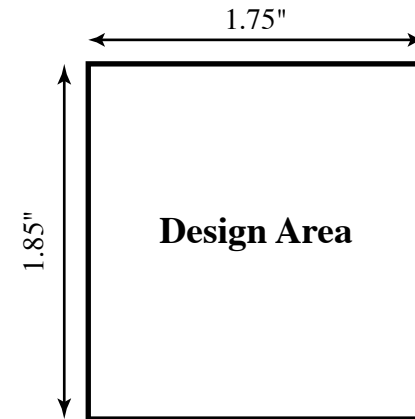

Actual Size

## Overlap Label

## Basic Label

Note: All dimensions given are the size of the label after it has been cut. The size is the maximum tolerated by the container and may be made smaller. We recommend that a 0.1" bleed area be added to both dimensions of the label file. This would make the Overlap label 2.3" x 1.95" and the Basic label 1.85" x 1.95".
