

Reference sheet for Baby (5 mL) Lip Balm Jars

5 mL Jar (#109-5611 and the 5 mL lids that fit these jars)

Note: All dimensions given are the size of the label after it has been cut. The size is the maximum tolerated by the container and may be made smaller. We recommend that a 0.1" bleed area be added to both dimensions of the label file. This would make the 5mL top labels 1.0375" x 1.0375" and the side label 3.6" x 0.35".
