

Reference sheet for 0.25 oz Lip Balm Jars

33 mm Jar (#100-1111 & #100-1211 and the 33 mm lids that fit these jars)

Note: All dimensions given are the size of the label after it has been cut. The size is the maximum tolerated by the container and may be made smaller. We recommend that a 0.1" bleed area be added to both dimensions of the label file. This would make the 33mm top labels 1.2875" x 1.2875" and the side label 4.1" x 0.475".
