

Reference sheet for Slider Tin Lip Balm containers

Slider Tins (#129-8841) and the Slider Tin lids that fit these containers

Note: All dimensions given are the size of the label after it has been cut. The size is the maximum tolerated by the container and may be made smaller. We recommend that a 0.1" bleed area be added to both dimensions of the label file. This would make the Slider Tin labels 1.85" x .975" and the bottom label 1.7875" x .9125".
